DOCUMENT IMAGING SOFTWARE FOR DR-SERIES SCANNERS

CapturePerfect 3.0
For DR-Series Scanners

CapturePerfect 3.0 is a comprehensive document imaging software application that delivers out-of-the-box functionality with every DR-Series Scanner. This imaging software, which is ISIS® compliant, was designed to maximize scanning performance, as well as streamline tasks for viewing, presenting, sending, saving, and printing office documents. CapturePerfect automates the image capture process and produces consistent, high-quality scans from even the most difficult original documents.

SCANNING FUNCTIONS

• Save scanned images to specified file folders.
• Print scanned images to specified printer.
• Attach scanned images to an e-mail.
• Project scanned images through projectors during business presentations.
